OGDEN HEIR TO A LARGE ESTATE

MRS. BULKLEY TESTIFIES BEFORE SALT LAKE COURT.

One of the Claimants to the Property of John Caine—Child Was Born in Leadville.

Salt Lake, June 15.—An echo of a case in which much interest has been aroused here was heard Monday, when Judge T. D. Lewis, of the Third District court, held a preliminary hearing of the petition of four residents of the British Isles, who allege that they are heirs to a portion of the estate of John Caine, the novelist, for the revocation of letters of administration granted nearly two years ago to the Salt Lake Security & Trust company. Mrs. Mary Elizabeth Bulkley, of Ogden, appears with the English claimants as one of the supposed heirs of John Caine, whom she believes is her father, although she said during her testimony yesterday that she has no absolute proof as to this fact.

Mrs. Bulkley desires to go east on a trip to remain several weeks and her testimony was taken at this time, the further hearing of the case being fixed for September 13.

The English petitioners for the revocation of letters of administration are Thomas Caine, of Cleator Moor, Cumberland county, England; Philip Caine, of Durham county, England; Ruth Williamson, of Cleator Moor, Lancashire.

It is alleged in the petition that the trust company is a debtor to the estate instead of a creditor, and that the company would be adversely interested in the estate.

John Caine, who is said to have been born on the Isle of Man, died at Long Beach, Cal., on September 9, 1907, leaving property in California and in Utah, the value of which is variously estimated at from \$10,000 to \$50,000. Caine professed to be unmarried.

In her testimony Monday Mrs. Bulkley said she thought Caine married her mother in Whitehaven, England. She said she was born in 1882 at Leadville, Colo., and that she learned nothing about the divorce between her father and mother until told of it by Caine at Ogden after she was grown.

Her mother, she said, told her nothing of it before that time. She was of the opinion that the divorce was obtained in Colorado. Her mother, Mrs. Anna Margaret Seelig, lives at Ogden.

Mrs. Bulkley said she could remember little about Caine, whom she last saw about six years ago, she said, having also seen him about two years before that time in Ogden.

It is said that an attempt will be made by the English claimants to show that Mrs. Bulkley is the child of Mrs. Seelig, but not of Caine. It is said there is no record of the supposed marriage.

Testimony also was given for the trust company Monday by Frank E. McGurkin, who held that he had transacted business with Caine as early as 1896. Caine appeared to him to be rather peculiar and quiet. Caine said he was born on the Isle of Man, but that he left home early in life.

Mrs. Charles Lindsey, who kept a boarding house at Park City, identified a photograph of Caine as that of a man who had been at her house and who was visited by Mrs. Seelig. She said Mrs. Seelig brought a little girl, who she said resembled a picture of Mrs. Bulkley taken when a child.

The county clerk yesterday issued a marriage license to Russell Scown and Kathryn J. McCormack of Park City.

BEAUTIFUL YARD OF GEORGE LANGLOIS

George Langlois, the Huntsville pioneer whose stories of early life in Utah have appeared from time to time in these columns, now resides in this city, occupying a cottage at 362 Thirtieth street. Mr. Langlois called at The Standard office today and invited a representative of the paper to accompany him to his home and view the flower garden which is his especial pride.

It can be said that the display of flowers at the little home can hardly be surpassed in the city. A profusion of various plants lines the walks and yard including poppies, nasturtiums, pansies, violets, sweet williams, California poppies, Danish posies, roses, petunias, geraniums, oleanders, sweet peas, carnations and many other flowers. The poppies, great brilliant specimens, standing three feet in height, were obtained from seed brought originally from Java and their equal in beauty would be hard to find. Mr. Langlois is an enthusiastic horticulturist, his experience along those lines dating back to his boyhood home on the Island of Jersey.

AMERICAN SUGAR REFINING STOCK HAS ABRUPT DECLINE

New York, June 15.—There was an abrupt decline of eight dollars a share in American Sugar Refining stock during the first hour of trading on the stock exchange today. The drop in price was attributed to the litigation of the company recently and to fears of a rigorous government inquiry into its affairs. At one time, the stock fell from 127 to 123 on one sale, but later there was a rally of 4 1-2.

The break in this stock affected practically the entire list and the whole market declined.

WYOMING WILL PRODUCE 40,000,000 POUNDS OF WOOL

Cheyenne, Wyo., June 15.—Wyoming this year will produce forty million pounds of wool for which the growers will receive \$8,000,000 gross, according to conservative estimates from authoritative sources. The clip averages close to eight pounds per fleece,

and some of it has sold as high as 25 cents per pound.

All previous records for the wool clip have been broken and that of 1907, which was the banner year, is exceeded by nearly four million pounds.

Graduates' day, the 17th final exercises will begin at 10 a. m., and the program prepared is one of unusual excellence. Honors in the academic course and in the conservatory of music will be awarded to the graduates, who will be addressed by the prominent city lawyer, George H. Davis.

DRUNKENNESS IN THE POLICE COURT

Police court had little excitement this morning owing to small number of cases in for trial and the fact that most of the cases were for drunkenness to which the offenders readily pleaded guilty.

Otto Danielson, James Nowak, and Charles Burrel were each arraigned on the charge and drew the customary fine of \$5 or five days each.

John Gorman was charged with mendacity. He pleaded guilty and was given the usual 10 days on the rock pile.

George Thomas admitted that he had disturbed the peace and was let off with a nominal fine of \$5 or five days.

Curran was yesterday sentenced to two and a half years in Sing Sing prison for the theft.

BRAIN BUILDING.

How to Feed Nervous Cases.

Hysteria sometimes leads to insanity and should be treated through feeding the brain and nerves upon scientifically selected food that restores the lost delicate gray matter. Proof of the power of the brain food, Grape-Nuts, is remarkably strong.

"About eight years ago when working very hard as a court stenographer I collapsed physically, the nervous system was taken to the State Hospital for the Insane at Lincoln, Neb., a ravaging maniac."

"They had to keep me in a straight-jacket and I was kept in the worst ward for three months. I was finally dismissed in the following May but did no brain work for years, until last fall when I was persuaded to take the testimony in two cases."

"One of these was a murder case and the strain upon my nervous system was so great that I would have broken down again except for the strength I had built up by the use of Grape-Nuts. When I began to feel the pressure of the work on my brain and nerves I simply increased the amount of Grape-Nuts and used the food more regularly."

"I now feel like my old self again and am healthy and happy. I am sure that if I had known of Grape-Nuts when I had my trouble 8 years ago I would never have collapsed, and this dark experience in my life would never have happened."

"The power of Grape-Nuts as a brain food is simply wonderful and I do not believe any stomach is so weak that it cannot digest this wonderful food."

"There's a Reason." Look for the little book, "The Road to Wellville," in pkgs.

FALLS 3,000 FEET IN CRIPPLED AEROPLANE

LOCAL INVENTOR MADE ASCENT IN BALLOON.

Then Attempted to Descend in Machine He Had Constructed, But Could Not Guide It.

Berwyn, Neb., June 15.—A local inventor dropped 3,500 feet in a crippled aeroplane here today. He was not seriously hurt.

The amateur aviator was U. Sorenson, a blacksmith. Sorenson, in view of several hundred fellow townsmen, made the ascent in a balloon, and then attempted to descend in an aeroplane that he had constructed. The rudder worked loose and Sorenson was unable to guide the machine. It began to descend at a terrific speed, turning over and over as it dropped.

The inventor clung tenaciously to the craft and when it struck the ground he was in a sitting position and not badly hurt.

BRILLIANT RACE MEET AT ASCOT, ENGLAND

Ascot, June 15.—The Royal Ascot, the race meeting of society and the event that brings the London season to a close, opened today with a promise of clear skies and an attendance never before equalled in either brilliance or number. For Americans the meeting holds a greater interest than ever, for, in addition to the social aspects of the gathering, a number of American horses have been entered for the most important races of the week. The opening today was unique also, in that for the first time an American woman, the Countess of Granard, who was Miss Beatrice Mills of New York, had a place in the royal procession, which made its way from Windsor Castle to the royal enclosure facing the Ascot course.

The Coventry stakes of ten sovereigns each, with 1,000 sovereigns added, for 2-year-olds, distance five furlongs, was won by the chestnut colt by Gallinule-Admiration. Yellow Slave was second and Nell Gow third. August Belmont's Merry Tas and H. P. Whitney's Artless were among the thirty starters.

The Ascot stakes, a handicap, with 2,500 sovereigns added, distance two miles, was won by Rushcutler; Laughing Miss, second, and Wedding Ring third.

BASEBALL AFTER DARK INAUGURATED BY ELKS

Cincinnati, June 15.—Baseball by electric light, from which so much is expected by some, was given its try-out at League park here last night when members of the teams, representing the Elks' lodges of Cincinnati and Newport, Ky., practiced for the after-dark game they will play next Thursday night. The immense reflectors installed on high towers illuminated the field almost as brightly as daylight, and others manipulated so that light was thrown upward, made it easy to find and catch balls batted into the air. None of the Cincinnati players, as President Hermann was unwilling to risk injury to any of his athletes in the untried style of ball playing.

With the exception of El Paso where 96 was recorded, and Jacksonville, Fla., with 92, Boston and Albany, N. Y., were the hottest places in the country. In Chicago the mercury began to ascend in the late afternoon, but never got above 81.

TWO-YEAR-OLD BOY IS EMBRACED BY LITTLE BEAR

Walla Walla, Wash., June 15.—When Angelo Locati, an Italian farmer near Milton, Ore., heard screams from his two-year-old son, Sunday afternoon, he ran into the house to find the child in the embrace of a small black bear. A vigorous kick caused the bear to release its hold. Aside from a few scratches, the child was uninjured.

The cub weighed forty-five pounds and evidently had strayed from the hills and wandered into the house through the door.
